

Grafix Chipboard Travel Journal

Designed by: Grafix Designer

Supplies:

Grafix Chipboard
Grafix Vellum sheets
Grafix Double Tack
Patterned Paper
Solid Card stock
Ribbon

Directions:

1. Cut chipboard and vellum sheets to 6x6 or desired size.
2. Punch holes through chipboard and vellum sheets.
3. Apply Double Tack to the reverse side of patterned paper and card stock.
4. Cut a square of patterned paper measuring 5x5 and secure with Double Tack to the center of one chipboard square. This will be your cover.
5. Die Cut "Our Trip" or a phrase of your choice out of both the patterned paper and the solid cardstock. Layer the letters to create a shadow effect and glue to the center of the cover.
6. Create a border with solid cardstock by cutting thin strips and securing with Double Tack to the edges.
7. Lace ribbon through the holes to bind the book together. Keep it somewhat loose so that the pages can be turned easily.
8. Fill with photos and notes.
