

# Resin Ring

Designed by: The O'Neil Sisters

Resin jewelry is all the rage! Create a shadowbox ring with vintage maps and steampunk charms, and then encase it in magical, glossy resin.

## Supplies:

Grafix Computer Laser Film  
Magic-Glos UV Resin  
Square Bezel Ring Blank, 26mm  
Sequin  
Micro Gear or Locking Washer  
Chunky Glitter  
Old Map  
Darice Scrapbooking  
Micro-Scissors Packing  
Tape Beacon's Premium  
Tacky Glue Toothpick  
Straight Pin

## Directions:

1. Cut a square from the map using the ring as a template. Laminate it with packing tape, then trim. Glue into the ring bezel using a toothpick and the glue.
2. Trim a silhouette from the printed Laser Film and glue it on top of the map.
3. Layer a micro gear or locking washer and a sequin into the ring and glue in place.
4. Sprinkle about 12 pieces of glitter into the ring.
5. Fill the inside of the ring bezel with resin covering all the goodies inside. Use a straight pin to pop any bubbles.
6. Cure under a black light or outside in the sun in a level position for 15-20 minutes.
