

Holiday Shimmer Trendy Card

Designed by: Maureen Wilson

Send handmade winter greetings that sparkle with Graftix Funky Film. Best of all, you won't need any adhesives!

Supplies:

Graftix Funky Film
Cardstock
Paper cutter
Scissors
Circle punch
Permanent marker or pen
Stamps & stamp pad

Directions:

1. Cut a piece of tan cardstock to 5.5 x 8.5 inches and fold in half.
2. Draw a line from one side of the card to the other, curving downward as you go. Draw a second line upward that crosses the first. Stay within the top 1/3 of your card.
3. Use a 1/2 inch circle punch to cut circles from the various patterns of Funky Film. (You could also trace a dime and then cut out the circles.)
4. Remove the backing from the Funky Film and adhere circles evenly below drawn lines.
5. Turn the circles into ornaments by drawing a black rectangle on the top of each circle.
6. Complete the card by stamping or writing a sentiment in the bottom right corner.
