Photo Sun Catcher

Designed by: Grafix Designers

Supplies:
Grafix Craft Plastic (2 sheets)
Computer Grafix Ink Jet Printable Film
Grafix Double Tack
Decorative Paper
Brads
Hole Punch
Glue
Scissors

Directions:
1. Print a photo on the Ink Jet Film.
2. Here we have used a free photo from Microsoft.com.
3. Trim decorative paper and Craft Plastic sheets to the same size.
4. Cut a square or rectangle large enough to accommodate the printed photo in the center of the decorative paper.
5. Adhere paper to one of the craft plastic sheets with Double Tack.
6. Then insert the Ink Jet Film into the center of the decorative paper.
7. Lay the top sheet of Craft Plastic over the Ink Jet Film and the decorative paper.
8. Punch holes in the 4 corners and secure all layers together with brads.
9. Trim around the photo with black cording and attach a hanger made of black cording to the top 2 corners with a small dab of glue.
