Directions:

1. Die cut two pieces of Lovely Layers largest-size die from shrink film for each embellishment needed. Color die-cut sets with markers. (Note: Designer colored one in Gold Metallic and one crosshatched in Magenta.)
2. Follow manufacturer's instructions to shrink film. (Note: If using oven, try inserting die-cut film into parchment paper pouch to keep plastic from twisting.) Let cool.
3. Layer gold film on top of the magenta film, punch a hole in the center and slide onto brad stem. Repeat for all embellishments.
4. Print menu on inkjet vellum; trim to desired size. Mat with Gold vellum; adhere to Canyon Clay cardstock base. Punch a hole at top center of the menu; insert embellished brad. Adhere to secure.
5. Wrap scrap paper around votive to create a template. Mark top and bottom votive edges; trim to create a template. Use the template to cut Gold vellum wrap and Platinum vellum center strip; adhere the strip to votive wrap. Punch a hole in the center of votive cover; insert embellished brad and bend ends on the back. Adhere wrap to the votive holder. (Note: Using straight-sided holder eliminates need to create template.)
