

Shrink Heart Pendant

Designed by: Kay Molyneux

This uses the fabulous Grafix Artist Series Shrink Film sheets to make a fun, colorful pendant.

Supplies:

Grafix Artist Series Shrink Film of your Choice
Grafix Red Shrink Film
Coloring Pens i.e. Pitt Pens or Sharpie; including a black one.
Versa Mark Clear Embossing Pad
Clear Embossing Powder
A Pendant Chain
Craft Heat Tool
Small Metal Embellishment of Choice

Directions:

1. Cut a 6" diameter circle from the Grafix Artist Series Shrink Film and then a 1 ½" diameter circle into it as shown.
2. Cut a heart shape from the red film about 2 ½" wide. You can use dies or draw and cut out with scissors.
3. Color in the images – remember the color will intensify when shrunk.
4. Shrink both pieces with the heat tool. When cool draw around the outside and inter-circle edges with the black pen.
5. Press the shrunk pieces into the embossing ink pad to put a thin film on them and then cover with the clear embossing powder.
6. Place the heart as shown and then heat to melt the embossing powder.
7. Repeat to add two more layers, on the third place the embellishment before heating.
8. To finish add the chain when cool.
