

# In Her Heart Mini Shrink Film Assemblage

Designed by: Cat Kerr

Love working small? Grafix Shrink Film allows you to do exactly that! Create an itty bitty spool assemblage using Shrink Film, wonderful images, Aqua pens and so much more!

## Supplies:

Grafix White Inkjet Shrink Film	Safety Glasses
Grafix Matte Dura-Lar Film	Wood
Shrink Film Images by Stephanie Rubiano	Blackened Steel Wire
Inkjet Printer	Wire Cutter
Scissors	Tacky Glue
Aqua Pens by Marabu	Wooden Spools
Assorted Paint Pens	Glitter Stickles
Toaster Oven	Distress Inks
Spatula	Sari Ribbon and String
Tile	Clipping Text Stickers
Drill with 1/16 Bit	Coconut Fibers
	Glitter
	Button and Seed Beads

## Directions:

1. Print the Shrink Film Images by Stephanie Rubiano onto Grafix Shrink Film and let it dry.
2. Add color to your images if desired by using markers.
3. Cut the images out.
4. Preheat oven to 300° degrees. **Note:** Make sure that you are using a designated craft toaster oven.
5. Add Grafix Matte Dura-Lar Film underneath and above your pieces and then place in a tray in the oven.
6. Watch them while they cook as they shrink quickly.
7. Once they have shrunken and flatten out remove them from the oven with a spatula and place a tile over them to flatten them out completely.
8. Using a 1/16 drill bit add holes to the bottom of your pieces. You will also need safety glasses as well as a wood piece to place underneath your Shrink Film while drilling. (You could also hole punch before shrinking to place holes in the film.)
9. Cut three pieces of wire in assorted sizes ranging from 4" to 6".
10. Fold one corner to a 90 degree angle using pliers, feed the butterfly, fold the wire back down, trim the tail with wire cutters and press the tail firmly securing the butterfly in place.
11. Add some loops to the wire to represent movement.
12. Add Glitter Glue to the center of the butterfly and spread it with your fingers.
13. Next add some glue to a tiny butterfly and glue it on to the girl.
14. Add some Vintage Photo Distress Ink to a store bought spool. Wrap sari ribbon and string around the spool and finish the spool by sewing on tiny seed beads.
15. Tie all the wire butterflies together with some string.

16. Add glue to the opening of the spool and then place your butterflies into the hole. Adjust them if necessary and let dry.
17. Add glue to the girl and place her in front of the wire butterflies and let dry.
18. Add a sticker title to the spool.
19. Add glue to the top of the spool and add some coconut fibers as well as glitter and a button.
