Flower Card
Designed by: Kay Molyneux

Let your creativity bloom with Grafix Opaque White Craft Plastic Film, Alcohol Inks and Embossing.

Supplies:
Grafix Opaque White Craft Plastic Film
Grafix Artist-tac
Grafix Clear Shrink Film
Grafix Silver Shrink Film
Bee Stamp
Die Cut Machine
Sentiment Die
A6 White Card Blank
Alcohol Inks (Ranger)
Alcohol Blending Solution (Ranger)
Felt Pads
Blending Tool
Stamp with a Flower Design on an Acrylic Block
Versa Fine Clair Black Ink Pad
Clear Embossing Powder
Craft Heat Tool
Paint Brush
Glossy Accents (Ranger)

Directions:
1. Cut Grafix Opaque White Craft Plastic Film to fit an A6 card blank with a 1/8" border.
2. Apply two colors of Alcohol Inks to the Opaque White Craft Plastic Film with the felt pad adding a little alcohol blending solution to lighten and blend and leave to dry, it doesn't take long.
3. Dust the Opaque White Craft Plastic Film with the antistatic bag and using the Versa Fine Clair ink pad, stamp the image slightly off center onto it.
4. Apply the clear embossing powder, remove the excess and heat set, don't overheat or the plastic sheet will distort.
5. Paint the flower on the film with the alcohol blending solution and carefully wipe with kitchen roll to remove the ink. The raised area of the embossed image will help to keep the solution contained.
6. Using Grafix Clear Shrink Film, stamp a bee design on the film and follow the instructions on the package to shrink down to use as an embellishment.
7. Die cut the Grafix Silver Shrink Film with a sentiment of your choice, then follow the package instructions for shrinking.
