

Cat Cling Stickers

Designed by: Kay Molyneux

Customize your own easy to make cat Cling Vinyl stickers with Graftix Cling Vinyl Film to brighten up windows, mirrors and fridge doors, and any other smooth surface!

Supplies:

Graftix Clear Cling Vinyl Film
Cat Stamps by Laurel Burch
Dies from Stampendous (that coordinate with the stamp)
Stamping Platform
StazON Black Ink Pad
Alcohol Marker Pens
Die Cut Machine

Directions:

1. Position the stamps on the stamp platform on a sheet of Graftix Clear Cling Vinyl Film.
2. Ink up the stamps and stamp the cat design on the film.
3. Place the dies over their corresponding cat design; you may need to tape in place.
4. Then run the film through the die cut machine using the cutting plate combination recommended by the manufacturer.
5. For each cat, peel off the vinyl backing, turn over and color the backside with the alcohol markers. (It is important to color the non-stamped side as the pens will react to the StazON. Leave for a few minutes for the inks to dry.)
