

Transparent Floral Gift Tag

Designed by: Kay Molyneux

Make a one-of-a-kind gift tag for loved ones using Grafix transparent Computer Grafix, Wet Media Dura-Lar and Clear Craft Plastic Film.

Supplies:

Grafix .020" Crystal Clear Craft Plastic Film
Grafix .004" Wet Media Dura-Lar Film
Grafix Clear Adhesive-Backed Computer Grafix Film
Marlene Meijer-van Niekerk Large Flower Stamp
Small Background Stamp on an Acrylic Block
StazON Ink Pad- Black
Craft Heating Tool
H2O Mica Paints in Shades of One Color
No 3 Soft Paint Brush
Sharp Scissors
Ribbon
Computer
Ink Jet Printer
Hot Glue Tool

Directions:

1. Start by stamping 3 of the large flower stamps with the black StazON ink onto the Grafix Wet Media Dura-Lar Film.
2. Cut out the flowers out in three different ways: one as a whole image, another a little smaller, and the last image just the flower center.
3. Use the craft heating tool to warm one of the cut out flowers and when pliable, shape to give a little dimension, hold until set (just a few seconds). Repeat for all 3 flowers.
4. Then apply enough water to the H2O paints to mix to a thick creamy consistency and paint the back of each flower, the darkest shades at the center.
5. Allow a few minutes for the paint to dry.
6. Find a background image on the computer and print out on the Grafix Clear Adhesive-Backed Computer Grafix Film.
7. Cut the Grafix Crystal Clear Craft Plastic Film into the shape of a tag and peel off the protective film from the front and back.
8. Then stamp a few random images of the background stamp in black StazON ink.
9. After the design has been printed and allowed a little time to dry, peel off the backing of the printed Clear Adhesive-Backed Computer Grafix Film and place directly over the stamped side of the tag.
10. Press down well and trim off any excess.
11. Print out a sentiment onto Clear Adhesive-Backed Computer Grafix Film, cut out and apply to the tag.
12. Use the hot glue to attach the largest flower to the tag.
13. Then attach the middle-sized flower directly on top of the first.
14. Repeat with the smallest flower center.
15. To finish, tie the ribbon in place.
