Clearsnap: ColorBox Mixed Media Ink: Black, Khaki and Orange, Stylus & Tips and Circus Art Screen

Sharpie: Yellow, Orange, Red, Brown, Gold, Silver and Bronze Fine Point Markers

Sizzix Big Shot

Scissors

Computer

Printer

Directions:

1. Start by using the Jack-o-lantern face die-cut to cut out from Grafix White Cling Film.
2. Also die-cut leaf designs from the Cling Film.
3. Online find a pumpkin outline image that you like.
4. Then copy and paste the design into a Word document.
5. Adjust the image size to approximately 5 ½" wide.
6. Alongside the pumpkin, insert a text box and type in some Halloween or Fall theme words. (You can also skip adding in the theme words for a simpler look).
7. Adjust the size and font of the words to fit on the leaves.
8. Print the pumpkin and words out on Adhesive-Backed Computer Grafix Film.
9. Cut a piece of the Cling Film a bit larger than the pumpkin.
10. Ink the Cling Film using Khaki Ink applied with Stylus and Tip.
11. Lay an art screen over Cling Film and ink with orange ink.
12. Reposition the screen and re-ink, keep moving the screen and inking until most of the Cling Film is covered with the pattern.
13. Remove the screen, lightly ink over the entire piece with orange ink, and let dry.
14. Remove the backing from the pumpkin and lay over the inked Cling Film.
15. Fill in the stem with a brown pen. Then use the yellow and brown pens to fill in leaves.
16. To add shading, add a line with an orange pen down the creases in the pumpkin and smudge with your finger.
17. Cut out the pumpkin.
18. Ink the jack-o-lantern face with the black ink using Stylus & Tip.
19. Outline the pieces using a black pen.
20. Remove the backing from the jack-o-lantern pieces and apply them to the pumpkin.
21. For the leaves, add a combination of orange, yellow, brown and red marker and smudge colors as added to the blend.

22. Outline the leaves in a Metallic marker.
23. Cut out the Halloween words, peel off the backing, and adhere to the several leaves.
24. Remove the backing from the pumpkin and then you are ready to decorate.
25. Arrange and apply the pieces to mirrors, glass, soap dispensers, doors, refrigerators, or any other non-porous surface.
