

Grafix Opaque White Craft Plastic Mixed Media Tag

Designed by: Tania Ahmed

DIY your own mixed media tag with Grafix Opaque White Craft Plastic.

Supplies:

Grafix Opaque White Craft Plastic Film
Acrylic Paint and Ink Pad
Brayer
Embossing Powder and Ink Pad
Stamps
Acrylic markers
Book text or word stickers
Ribbon or Twine
Graphite pencil or China pencil
Hole Punch and Corner rounder

Directions:

1. Start by trimming the Grafix Opaque White Craft Plastic Film into a 4" x 6" piece.
2. Then, lightly apply acrylic paint with a brayer onto the Opaque White Craft Plastic Film. Repeat with a second color.
3. Next, stamp and create marks with a stamp and archival ink.
4. Using a paintbrush or your fingers, apply paint to create abstract dots in opposite corners of the Opaque White Craft Plastic Film.
5. Then, outline the dots and create additional marks on Opaque White Craft Plastic Film with a graphite pencil or china pencil.
6. Add more marks with acrylic markers.
7. Stamp with embossing ink on to Craft Plastic over designs.
8. Sprinkle embossing powder over the inked image and heat set with a heat tool.
9. Round the top corners of the Opaque White Craft Plastic tag.
10. Add book text with glue or word stickers to the Opaque White Craft Plastic tag and outline with a pencil.
11. To finish, make a hole in the top center of the tag and add ribbon.
