

# Grafix Clear-Lay Stenciled Card

Designed by: Tania Ahmed

Create festive cards with Grafix Clear-Lay Film as a stencil by following this simple card creation.

## Supplies:

Grafix Blue Clear-Lay Film  
Sharpie or permanent marker  
Craft Knife  
Scissors  
Ruler  
Cutting Mat  
Dye Ink Pads  
Ink blending brushes, makeup sponge  
Square card blank  
Alphabet Stamps  
Washi tape

## Directions:

1. Start by cutting a heart shape using a printed heart shape template or cutting free-hand on Grafix Blue Clear-Lay Film.
2. Next, trace the heart outline on two pieces of the Clear-Lay Film using a permanent marker.
3. Create a design on one of the heart outlines to use as an overlay to make a two-part stencil design.  
**Tip:** The more complicated the design, the harder it will be to cut out! You can also use a digital die-cutting machine to cut your design.
4. Place a cutting mat underneath the Clear-Lay Film and carefully cut the designs using a craft knife.
5. On a card blank, secure your outline stencil with washi tape.
6. Apply dye ink with a sponge or an ink blending brush.
7. Remove the first stencil and line up the second stencil then secure with washi tape.
8. Apply a different colored dye ink with a sponge or an ink blending brush, remove the stencil.
9. Lastly, add a stamped sentiment with black ink.
