

Shrinkable Pins

Designed by: Kathy Cano-Murillo

Get crafty with the Crafty Chica using Grafix Shrink Film to create quick and easy Shrinkable Pins! A great craft for gifts, backpacks, or just something special for yourself... the possibilities are endless.

Supplies:

Grafix White Shrink Film
Heart Shaped Punch
Variety of Sharpie Colors
Heating Tool
Spatula or Wooden Block
Hot Glue Gun
Pin Backings
Dimensional Glaze
Rhinestones or Glitter

Directions:

1. Use a large heart-shaped punch to cut out shapes from the Grafix White Shrink Film.
2. Then use the variety of Sharpie colors to create a fun design and color in the empty spaces. For an added pop you can use a metallic or silver Sharpie to color the outline of your heart.
3. Follow the instructions on the back of the Shrink Film package on shrinking the film using the Heating tool. (Use a spatula or wooden block to flatten the film if it doesn't lay flat after baking).
4. After the film is cool use the hot glue gun on the back of your design to attach the pin and backing.
5. Then add a thick coat of Dimensional Glaze to your design.
6. Lastly, you can add rhinestones or glitter to your design.
