

Lots of Layers with Frisket & Incredible Art Products

Designed by: Julie Fei-Fan Balzer

An easy way to create lots of layers and designs using White Mask Liquid Frisket, Original Nib, Rubber Cement Pick Up and more!!

Supplies:

Grafix White Mask
Grafix Original Nib
Grafix Rubber Cement Pick Up
Or Grafix White Mask 2 oz Kit
Grafix Low Tack Frisket Film
Sturdy watercolor paper
Watercolor Paint Brush
Rubber Stamp
Rubber Stamp Ink – permanent – several colors
Spray bottle
Water jar
Black Marker
Paint Pens or markers
Scissors

Directions:

1. Dip Original Nib in water then into the White Mask Liquid Frisket. Draw designs on your paper using the Nib and Frisket
2. Let White Mask to dry.
3. Stamp onto paper using a variety of different ink colors and stamps
4. Let ink dry.
5. Cover with watercolor paint.
6. Let watercolor dry.
7. Draw on paper with paint pens or markers, making random designs and doodles
8. With black marker draw a design on the back of the Frisket Film. Cut out the design or shapes.
9. Begin peeling the backing off the design, part way. Start applying to painted surface slowly while removing the rest of the backing as you go until all is adhered to the paper surface.
10. Add more watercolor to the surface.
11. Let watercolor dry.
12. Add more marks with paint pens and markers.
13. Let ink dry.
14. Remove the Frisket Film to reveal one layer of colors.
15. Using the rubber cement pick up, remove the liquid frisket to remove the very bottom layer.
