Make a functional pencil case using the decorate digital printed films. It is the perfect surface to decorate using mixed media, inks, and markers. It can be glued or sewn, and folds easily into usable items.

Supplies:
- Grafix Inkjet Matte Film/ Adhesive Inkjet Matte Film
- Marabu Permanent Markers Pens
- Marabu Yolo Metallic Marker/Gold
- Amsterdam Acrylic Inks

Directions:
1. Take the adhesive Matte film that's been decorated and adhere it onto some cotton canvas. Trim the edges so the material and film edges are neat

2. Fold the piece along it longest side into 3. Leaving some at the top to be used as a closing flap for the pencil case.

3. Glue with a hot glue gun or sew along the two sides that are touching each other. This forms the pouch of the pencil case.

4. Trim the corners of the flap for easier closing. Using snap fasteners/press studs, Velcro or a toggle to close the flap over the pencil case pouch
