

Your Source For Creative Plastic Films

acetate

A cast cellulose Di-Acetate film used in many commercial art applications. Manufactured primarily from wood pulp, this film is 100% biodegradable and can be recycled, composted or incinerated.

An industry-standard in graphic arts, packaging, printing, and overlays.

Grafix Acetate is offered in clear with a range of thicknesses from .003" to .010" and matte one side .003".

Available in rolls, pads and packs

- **Certified biodegradable**
- **Easy to cut and tear**
- **Exceptional clarity**
- **FDA approved safe for food contact**
