

Your Source For Creative Plastic Films

CLEAR-LAY™

A rigid vinyl (PVC) film that is an economical solution to many plastic film applications. This "student grade" film combines many of the desirable handling features of Acetate with the stability of Dura-Lar®.

Perfect for Overlays, Stencils & Protective Coverings

Clear films range in thickness from .003" to .010" in rolls, pads, and packs.

Easy to cut but won't tear!

Good clarity, high gloss!

Moisture resistant!

Acid-free and archival!

Please see price list for full range of sizes & thicknesses!
