

# Your Source For Creative Plastic Films

## Drafting Film

A polyester film with a one or two side matte translucent drawing surface. This film accepts lead, charcoal, graphite, colored pencil, pen and ink with ease. It erases cleanly without smearing or leaving shadows.

**Available with 1 or 2 side matte finish in rolls & packs**

**High Translucency**

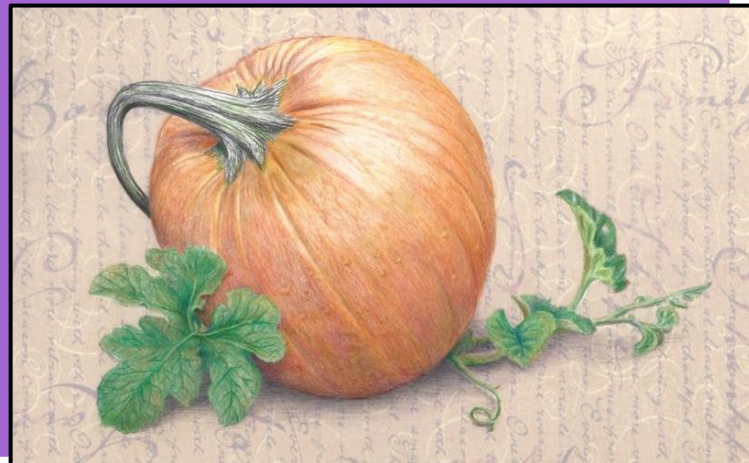

**Will Not Tear or Yellow**

**Lays flat**

**Archival**

**Dimensionally stable**

Widely used in engineering, drafting, laser cutting fabrication, stencil making, drawing, and mixed media applications.

**Offered in  
.003"  
.004"  
.005"  
and .007"  
thicknesses**

**Please see price list for the full range of sizes!**
