

# Wipe Clean Recipe Cards

Designed by: Keren Baker

Use Graftix Laminating Film to create erasable and reusable recipe cards!

## Supplies:

Graftix Laminating Film Heavy Weight  
PaperArtsy Stamps – ESC26, I&TD Words 2  
Stencil PS309 (PaperArtsy)  
Brayer  
Tsukineko Versafine Clair ink Nocturne and Memento ink London Fog  
PaperArtsy Acrylic Paint in Mustard Pickle, Blew, Cerulean, Bougainville and Limelight  
Gold Acrylic paint  
Cream Cardstock  
White Gel Pen

## Directions:

1. Using some paint and a brayer, add paint to a piece of cardstock randomly using different colours.
2. Add dark blue and gold paint over the brayered cardstock using a stencil.
3. Using more cardstock cut into pieces measuring 13.5cm x 9.5cm. Add a dividing line using a pen in the centre. Stamp a matching food related image to one part of the card using grey ink. Stamp 'recipe' in black.
4. Add lines, write the recipe on and adhere to a slightly larger piece of stencilled cardstock. Add some details using white gel pen.
5. Cut a piece of Graftix Laminating Film larger than the piece and peel back a little of the backing. Smooth it onto the recipe card to avoid bubbles. Burnish with an embossing tool or similar.
6. Add another piece of film to the back, this time burnishing well near the edges of the recipe card and along the edges of the film.
7. Trim the edges, not trimming too closely; leave about 1cm.

Tips- to make the laminating film go further, add another recipe card onto the reverse of the one you've made so you have 2 recipes per card.
