Heat to shrink

tips & tricks

Clear & Colors

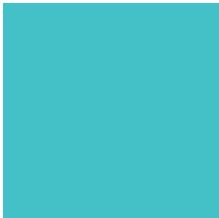

Shrink Film

Designs shrink to 20 % of the original size creating durable charms. Great for adding dimension and creating mini art. Easy to cut with decorative scissors, die-cut machines, and punches. Decorate with permanent markers, rubber stamps, and paint pens.

Shrink using a heat tool, toaster oven, mini pancake press or traditional oven.

Colors intensify as shrunk so color lightly.

Finish with frosted shimmer spray to add sparkle.

- Finish with UV resin or gel medium and add inclusions.
- Use the same stamped or stenciled image to create matching focal point in a project.
- Stamp with larger designs in black. Fill in with color.
- Simply cut & shrink a shape without coloring to create an effortless charm.
