DURA-LAR

The Acetate Alternative

This polyester film combines the best features of Mylar® and Acetate to provide a highly versatile film.

- Will not tear, absorb moisture or discolor with age
- Heat resistant
- Dimensionally stable
- Lays flat
- Acid-free and archival

All styles available in rolls, pads and packs

Clear Dura-Lar

An ultra-clear, glossy surface for protective coverings, layouts, color separations, window applications, and overhead transparencies. Use as an artwork surface for permanent inks and markers.

Matte Dura-Lar

A matte translucent drawing surface on two sides. This film will accept lead, ink, charcoal, paint and colored pencil; erases cleanly and is an economical alternative to Drafting Film.

Wet Media Dura-Lar

Specially coated on both sides to accept water-based mediums, markers, and inks without beading, chipping or running. Great for planning painting compositions, as a painting surface or printmaking. Simply wipe with a damp cloth for repeated use.

Dura-Bright - **NEW Grey color**

Strong, smooth, waterproof surface, wipeable, heat resistant, and fun to use. These films can be used with a wide range of mediums and techniques.

Try Opaque White film with watercolor and alcohol inks, and Opaque Black film to showcase metallics and iridescents. **NEW Grey film for a subtle, neutral toned film. Same great qualities of the Opaque Black and White. Available soon.**

Other mediums and applications include; embossing, debossing, stamping, glitter, colored pencil, acrylic, inks, mixed media, die-cutting, sewing and so much more.

Stencil Film

Used to create hand-cut polyester masking stencils that can be taped to the printing screen. The film is transparent which allows for easy reference and tracing of images. Stencils can be used repeatedly.

Monoprint Plate

A transparent, durable, nonporous polyester printing surface used to create unique prints by applying paint, using stencils, tracing, or removing ink to create a print.

Imaging Print Film

Used as a masking stencil to create clear film positives for the screen-printing photo emulsion process. They are compatible with inkjet printers.

Inking Palette

A smooth, nonporous, disposable plastic sheet that is quick and easy to use. Sheets are gummed at two ends to prevent curling when rolling ink with a brayer. Tear the sheet from the pad when finished and discard.
